Maytronics - The Art of Pool Cleaning Technology

www.maytronics.com

Recommended for public pools up to 15 m. (50 ft.) and pairs of two units for pools up to 25 m. (84 ft.) in length.

Public pool cleaning technology just got smarter and cordless with the introduction of the battery version of Dynamic Pro X Battery.

Dolphin Dynamic Pro X Battery is the only robot capable of manoeuvring around corners, bridges and islands found in so many hotel pools, semi-public pools and water parks. Cordless Dynamic Pro X Battery's class-leading performance is supported by reinforced components, a ruggedized frame, self-learning software, dual motor manoeuvrability, a remote control and a clever indicator for alerting a clogged up filter bag.

Being cordless, Dolphin Dynamic Pro X Battery is capable of cleaning any-shaped pool, managing challenging curves and corners without getting tangled up in the process. Being an extra robust robot, Dolphin Dynamic Pro X Battery manages the tough tasks smartly, providing an unrivalled cleaning system that will scrub, brush, vacuum and filter the entire pool, including walls and waterline.

Dolphin Dynamic Pro X Battery has also been built to remove all pool debris, ensuring exceptional water quality, clarity and hygiene.

Dolphin Dynamic Pro X Battery Advantages:

- Patented cordless rechargeable robotic pool cleaner.
- Intelligent illuminated float interface for easy location and control.
- Extra robust robot designed for widely-used public pools.
- Efficiently cleans debris, ensuring exceptional hygiene.
- Self-learning advanced software enables optimal cleaning.
- Wireless remote control for manual navigation and programming.
- Wide range of cleaning programmes.
- Advanced dual motor manoeuvrability for optimal pool coverage regardless of shape, slopes and obstacles.
- Clogged filter bag indicator ensures ongoing cleaning efficiency.
- Capable of working in pairs in pools over 15 m. in length.
- Equipped with Caddy for handling and storage.

Dolphin Pro X Battery Specifications:

Cycle time	1.5, 2 hours, max.	
Cable length	3.5 m.	
Filter bag porosity	50 micron	
Suction rate	16 m ³ per hour	4,233 gal (USA) per hour
Motor unit voltage	24 VDC	
Charger	IP 54	
	Input 230 VAC	115 VAC
	Output 30 VDC	
Weight	27.50 Kg	
Warranty	24 months on the Robot	
	12 months on the Battery
